

About USA Voice & Data, LLC

USA Voice & Data is a leading national broker of innovative and reliable business quality voice and data services. We reduce our clients' telecom costs, improve their service reliability and employee productivity, while delivering an unprecedented level of ongoing support.

USA Voice & Data has distinguished itself as an independent advocate for our clients, navigating them through the complex maze of technology and telecommunications decisions. By brokering virtually every major telecommunications carrier, we are able to match the appropriate carrier solutions to our clients' budgets and ever changing business needs.

We offer businesses reliable telecom solutions, reduce their bottom line telecom costs (frequently by 20% to 40%) and maximize the value they derive from their telecom infrastructure. We generate much of our new client business from referrals, both from our extensive business partner network and from existing satisfied clients.

Our Clients Typically Come To Us When They:

- Are **RENEGOTIATING THEIR EXPIRING CONTRACTS**
- Are **MOVING OR ESTABLISHING A NEW OFFICE** or **FACILITY**
- Want to **NETWORK THEIR OFFICES** or **FACILITIES**
- Are concerned with **RISING TRAVEL, TELECOM & INTERNET SPENDING**
- Are **EXPERIENCING RECURRING OUTAGES**
- Are frustrated with their **LACK OF BANDWIDTH** or **TELECOM FEATURES**
- Are **CONCERNED WITH EMPLOYEE PRODUCTIVITY**
- Have no **BUSINESS CONTINUITY** or **EMERGENCY NOTIFICATION SOLUTION**

USA Voice & Data is dedicated to the highest standards of customer service and committed to being a proactive resource, delivering and maintaining value for your company. Our experience, strong carrier and partner relationships, coupled with our **Strategic Online Capabilities for Telecom Service Pricing and Contract Management**, combine to provide our small, medium and large national clients and business partners with a “**Trusted Long-Term Telecom Advisor**”.
